Alpecin caffeine shampoo is targeted at men who are losing their hair to male pattern baldness (also known by the sexier term Androgenetic Alopecia) - about 80% of all male hair loss victims. Hair loss in men occurs when the hair follicles (which grow the hair and hold it in place) start to shrink.

Caffeine Shampoo: Does Alpecin Work At Preventing Hair ...

Been using Alpecin for quite a while. Got it as a gift in Germany from a friend who was an outstanding hair stylist. After numerous treatments at the dermatologist for dry scalp including surgery, I used Alpecin MEDICINAL which happened to be lying around and it worked wonders.
