Endometriosis World Clinics Obstetrics And

Ectopic endometrial tissues are most commonly located in the dependent portions of the female pelvis (eg, posterior and anterior cul-de-sac, uterosacral ligaments, tubes, ovaries), but any organ system is potentially at risk (see the following images). These ectopic foci respond to cyclic hormonal fluctuations in much the...

Tami Rowen | UCSF Medical Center

Gynaecology or gynecology (see spelling differences) is the medical practice dealing with the health of the female reproductive systems (vagina, uterus, and ovaries) and the breasts. Outside medicine, the term means "the science of women". Its counterpart is andrology, which deals with medical issues specific to the male reproductive system.. Almost all modern gynaecologists are also ...
