With thicker braided insulation, these cords provide better abrasion protection than other HDMI video cords for use in areas with rough surfaces that could damage the cord. They connect to HDMI Ethernet Channel (HEC) devices and allow an Ethernet-enabled device to share its connection with another device.

A modern torpedo is a self-propelled weapon with an explosive warhead, launched above or below the water surface, propelled underwater towards a target, and designed to detonate either on contact with its target or in proximity to it.. Historically, it was called an automotive, automobile, locomotive or fish torpedo; colloquially called a fish.The term torpedo was originally employed for a ...

The Oberon class was a ship class of 27 British-designed submarines operated by five different nations. They were designed as a direct follow-on from the Porpoise class: physical dimensions were the same, but stronger materials were used in hull construction, and updated equipment was fitted.. The submarines were built between 1957 and 1978 by four shipyards: Cammell Laird (4), Chatham ...
