

Progressive Education Philosophy

Progressive Education Philosophy

Progressive education is a pedagogical movement that began in the late nineteenth century; it has persisted in various forms to the present. The term progressive was engaged to distinguish this education from the traditional Euro-American curricula of the 19th century, which was rooted in classical preparation for the university and strongly differentiated by social class.

The Park School of Baltimore is a private, PK-12 school in Baltimore, Maryland. Founded in 1912, the school's core values, rooted in the progressive educational philosophy of John Dewey, sustain an unshakable belief in children's capacity to enjoy learning, to act rationally, and to grow when inspired by highly qualified, caring teachers.

Principles of Progressive Education · The Park School of ...

The philosophy of education examines the goals, forms, methods, and meaning of education. The term is used to describe both fundamental philosophical analysis of these themes and the description or analysis of particular pedagogical approaches. Considerations of how the profession relates to broader philosophical or sociocultural contexts may be included.
