### **Social Commentary In Literature**

It is important to distinguish between the term of social media and social networking. According to Wikipedia (2016b), social networking services could be identified as “an electronic service, application, platform, or site used by individuals who have a common interest, beliefs, attitudes, culture, activities and really life relationships. On the other hand, as tools of communication ...

Driving is the primary means of personal travel in many countries and relies heavily on vision for its successful execution. Research over the past few decades has addressed the role of vision in driver safety (motor vehicle collision involvement) and in driver performance (both on-road and using interactive simulators in the laboratory).

Investible assets of clients gained from social media activity are trending up, while the average new account size is holding steady. However, the median age of a new client gained through social media jumped to 40 from 35 last year as social media matures beyond its youthful origins and develops traction with older (and potentially higher asset) prospects.
