An integrated approach for Biomapping. Proteomics research defines the dynamic nature of gene expression and regulation. Innovative technologies such as Seppro ® depletion products allow for deeper proteome investigation by making less abundant proteins accessible. Rapid, screening of protein interactions is possible using Duolink® proximity ligation assays.

and practice in the health sciences. Our state-of-the-art, integrated facility supports and enables collaboration between students, faculty and researchers across the health disciplines and will help us to educate health professionals using a team-centered approach.

### **Health Sciences - University of Saskatchewan**

Science in a broad sense existed before the modern era and in many historical civilizations. Modern science is distinct in its approach and successful in its results, so it now defines what science is in the strictest sense of the term. Science in its original sense was a word for a type of knowledge, rather than a specialized word for the pursuit of such knowledge. In particular, it was the ...
